G4

Fiberglass Filter Media Rolls & Pads for Spray Paint Booth

Specifications

Media : Glass fiber
 Efficiency : G4 (EN 779) / MERV 8 (ASHRAE 52.2)
 Basis Weight : 250 g/m²
 Max. Temperature : 150°C
 Dust Holding Capacity : 3400 gm/m²
 Rec. Final Pressure Drop : ≤ 150 Pa

Advantages

- ✓ Lower pressure drop
- ✓ Lightweight
- ✓ Treated with adhesive for increased dust collection
- ✓ Well supported with rigid backing
- ✓ Flame retardant up to 150°C
- ✓ High dust holding capacity

Applications

Prefilter for heat recovery and air treatment systems.
 Widely applied as exhaust filtration from paint spray booths.

Special Size Customized

Filter Rating	G4
Dust Arrestance	92%
Thickness	60 mm
Basis Weight (gsm)	250 g/m ²
Dust Holding Capacity (gsm)	3400 g/m ²
Nom. Air Volocity	1.5 m/sec
Initial Pressure Drop	33 Pa
Final Pressure Drop	150 Pa
Max. Temperature	150°C
